

BODY FOUND IN CAR

Foreigner Supposed to Have Been Murdered on Moving Freight Train—Barr Gone.

Chickasha, July 29.—The breast and head pierced by five bullet holes, and both ears cut off close to the skull, evidently with some sharp instrument the body of an unknown man was found in a car loaded with ties, on Frisco freight train No. 435, here at 5 o'clock Saturday night. The condition of the body indicated that the man had been dead only a short time.

The authorities believe that the crime was committed between Chickasha and Oklahoma City, which place the train left at 5 o'clock Saturday evening.

Blood was scattered all over the roof and sides of the car, and the railroad ties which it contained, as if the murdered man had put up a hard fight after he was first wounded, but there is not the slightest clue either to the identity of the dead man or of his slayers.

The body is evidently that of a foreigner, probably a Bohemian. The man was about 29 or 30 years of age, five feet eleven inches tall, and weighed about 165 pounds. He was dressed in rough working clothes.

There were no papers of any kind in his pockets, and no money was found on the body. The only thing that may possibly lead to an identification of the corpse is that he had in one pocket five small photographs. Three of these are evidently of himself, one is of another man about his own age and the fifth is of an old man. The pictures are only about an inch square and there is no mark on any of them to indicate where they were taken.

The body was discovered by a brakeman on the train who was going through the cars looking for hoboes. He immediately notified the local authorities, the car was sidetracked here, and the body was removed to the Claycomb & Anderson undertaking rooms. The authorities have sent descriptions of the body all over the country in the hope that it may be identified.

PRAY FOR RAIN AND GET DOWNPOUR IN 3 HOURS

Joplin, Mo., July 29.—Belief in the efficacy of prayer received a decided impetus today because of the quick response to petitions of preachers that the drouth which has been destroying crops for the past month be dispelled.

The pastors in five downtown churches by agreement prayed in concert for rain.

Within three hours the rain began falling in torrents, and the downpour continued throughout the afternoon, soaking this entire section.

BIG HASKELL BUILDING AT INDIAN SCHOOL BURNED

Lawrence, Kas., July 29.—The principal school building at Haskell institute, the United States Indian industrial school located just south of Lawrence, caught fire at 3 o'clock this morning and was entirely destroyed, only the walls remaining. The fire is supposed to have been caused by spontaneous combustion in the printing office located in this building which had been closed for a month.

The building was used for recreation rooms and contained the library and the printing office. The library was the result of years of accumulation since the establishment of the school. The printing office had been recently equipped with modern machinery and material. Both losses are total.

Thaws Are in the West. Tacoma, Wash., July 29.—Evelyn Nesbit Thaw and her mother Mrs. Holman, passed through this city Tuesday night enroute to San Francisco to plead with Attorney Delmas to again join counsel for the defense of Harry Thaw.

San Francisco, July 29.—When the foreign dispatch was shown to Delphin M. Delmas at the Glass bribery trial, he said: "I must repeat what I have constantly said for months past, namely that I have not one word to say regarding the Thaw case."

ATE LUNCH BASKET

Inventor Improves on the Idea of Pulling the Hole in After You

Beaver Falls, Pa., July 28.—Getting his idea from the man who crawled in a hole and pulled the hole in after him, Harry Kelley, of Eastville, today forwarded an application for a patent on a lunch box or basket which he claims will do away with the littering up of picnic grounds and preclude the necessity of lugging around an empty basket after the lunch is eaten.

The basket is made of the same material as ice cream cones, and the pioneers after eating the lunch, are expected to eat the lunch basket also.

MANY OIL LEASES SOLD IN WILDCAT FIELD

The Muskogee Phoenix says the leases sold by Master in Chancery A. A. Davidson, show that there is considerable oil development in wildcat fields. A large number of leases were sold, the majority in wildcat country, and small bonuses were paid.

The Wildcat Oil Co., brought the Hubbard Lewis and Rosie Hawkins leases of 160 acres each, paying a bonus of \$85 and \$95.

The Cherokee Oil Co. bought the Alice Watkins, George and William Lawrence, Joe Elers Woodward, Sarah and Tempey Davis, Eva Zofall leases, all in township 10, paying bonuses of from \$40 to \$100.

The Star Deep-in Water lease of 110 acres in the Bartlesville field was bid in by Frank Tegler, of Kansas City, for \$1,430.

Alleged Members of a Lynching Party to Have Aid—Will Not Be Admitted to Band.

Guthrie, Okla., July 27.—In the presence of the federal jailer here, a visitor of prominence to the jail yesterday assured Frank Sisk, of Cleveland, M. E. White and C. A. Green, of Osage, that they need not fear the outcome of their trial for murder in connection with the lynching of Frank Bailey, the negro tramp, at Osage station on the night of July 16.

"There is a fund of \$90,000 for your protection in this affair," the visitor told the men.

These three prisoners were transferred to day by United States Marshal John Abernathy to Pawhuska for a preliminary hearing before United States Court Commissioner Mellett tomorrow. All are charged under the federal statutes with murder and are therefore not permitted to give bond. Green and White are employees of the Missouri, Kansas and Texas railroad.

Frank Bailey was lynched after he had shot John Kelley, a brakeman who had refused him a ride on a "Katy" train. Kelley was thought to be fatally wounded and a mob, gathering quickly, took Bailey from the officers and lynched him. Kelley has since shown indications of recovery.
